Art Unit:

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-27, drawn to isolated DNA molecules encoding an MEKK interacting protein FHA (MIF1), vectors and host cells comprising said molecules, oligonucleotides of said molecules of at least 10 bases in length, isolated FHA proteins and fragments thereof.

Group II, claim(s) 28-30 and 32, drawn to antibodies which bind said MIF1 proteins and methods of use of said antibodies.

Group III, claim(s) 31, drawn to hybridization assays using said DNA molecules.

Group IV, claim(s) 33-38, drawn to methods of screening for modulators of MIF1 polypeptides.

Group V, claim(s) 39-44, drawn to methods of decreasing or increasing the MEKK activity using MIF1 protein.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical features of Groups I, II, IV and V are DNA, antibodies, modulators and MIF1 proteins, respectively, which are products of

unrelated chemical structure and function. Inventions of Group I and III share a special technical feature but said inventions are not required to be rejoined under PCT Rule 13.1 because the invention of Group I already has a method of use of DNA.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
